Original Blum quality for perfect operation

Blum’s lift, hinge, box and runner systems all use state-of-the-art technology and are based on more than 60 years of experience. Extensive tests ensure perfect operation, from one-touch opening to soft and effortless closing. High quality is ensured for the lifetime of the furniture.
Motion technologies for top quality motion

Blum's motion technologies not only make it easier to open and close furniture – they make motion a mesmerising experience. For top quality motion in all living areas – electrical or mechanical.
**soft close**

Mechanical

Soft and effortless closing for all your furniture – no matter how heavy the pull-out, door or lift system.

---

**opening & soft close**

Electric

Supports the opening of lift systems and pull-outs after the front is touched. The subsequent motion takes place all on its own. Soft and effortless closing with integrated BLUMOTION. Lift systems even close automatically at the press of a switch.

---

**opening & soft close**

Mechanical

Pull-outs open at a single touch, giving users easy access to the contents of the drawer. Opening is also possible by pulling. Closes softly and effortlessly with minimal force thanks to integrated BLUMOTION. Can also be pressed shut.

---

**opening**

Mechanical

Furniture opens at a single touch, giving users easy access to the contents of the cabinet. To close, press shut. Without soft close.

Lift systems for enhanced freedom of movement

AVENTOS lift systems bring top quality motion to every wall cabinet. Whether in kitchens or living areas, with large or small fronts, all AVENTOS lift systems open with the utmost ease and close again softly and effortlessly with integrated BLUMOTION. Freedom of movement is guaranteed throughout, and fronts are always out of the user’s way.
AVENTOS HF – For bi-fold lift systems
The solution for high wall cabinets with bi-fold fronts and minimal space requirements above.

AVENTOS HS – For up & over lift systems
The ideal fitting for large, one-piece fronts. There is enough space above the cabinet for crown mouldings or cornices.

AVENTOS HL – For lift ups
Suitable for tall cabinets or wall cabinets with fronts positioned above, AVENTOS HL can also be used in tricky installation situations, e.g. integration of electrical appliances into wall units.

AVENTOS HK top – For stay lifts
Compact, minimalistic, highly functional. Thanks to electrical support it is suitable for both small and large lift systems. Opening angle stop and safety mechanism are integrated.

AVENTOS HK-S – For small stay lifts
The right solution for smaller, one-piece lift systems, e.g. above larder units or refrigerators. Its compact dimensions mean that the fitting fits snugly into small furniture.

AVENTOS HK-XS – For small stay lifts
Suitable for many applications (for both tall cabinets and wall cabinets) and needs very little space. The lift system can even be used for cabinets with low internal depths.
Hinge systems for numerous installation situations

Blum’s comprehensive range of hinges has the right solution for a great many applications. The hinge systems are characterised by reliability, easy adjustment and assembly and attractive design.
MODUL
Classic design and reliable function – MODUL’s combined slide-on and screw-fix feature has proven itself over the years. This hinge system is very popular with furniture makers.

CLIP top
Simply clip it on and that’s it. CLIP top offers standard and special hinges for a variety of applications. Can be combined with BLUMOTION or TIP-ON.

CLIP top BLUMOTION
Innovative technology within the smallest space. CLIP top BLUMOTION has soft-close BLUMOTION seamlessly integrated into the hinge boss.
Box systems for a variety of design needs

Blum’s box systems offer a wide range of design possibilities and aim to meet the diverse design demands placed on furniture. They boast a feather-light glide, enhanced ease of motion, impressive quality and elegant design.
**LEGRABOX**
A sleek and clear-cut design with slim drawer sides of just 12.8 mm – that's LEGRABOX. In addition to LEGRABOX pure with matt, metallic surfaces, the LEGRABOX free design version allows high fronted pull-outs to be customised to individual designs.

**TANDEMBOX**
TANDEMBOX intivo, TANDEMBOX antaro and TANDEMBOX plus offer a multitude of design options based on a single tried-and-tested cabinet profile.

**METABOX**
METABOX drawers and pull-outs have just a few component parts and are made of robust materials to suit many different applications. BLUMOTION is available as an optional extra.
Inner dividing systems for beautifully organised interiors

Blum’s practical inner dividing systems organise every drawer and pull-out. All storage items are exactly where they should be and can be stored securely and within easy reach. Storage space can be put to optimal use and tailored to individual needs.
Practical kitchen accessories

The sophisticated kitchen accessories facilitate numerous kitchen tasks. Knives, plates, spices, cling film and aluminium foil can be stored in an organised way and are kept within easy reach at all times.

AMBIA-LINE for LEGRABOX

The elegant inner dividing system ensures perfect organisation in all living areas. The frames can easily be positioned wherever required and are available in high-quality materials such as steel and wood design.

ORGA-LINE for TANDEMBOX

ORGA-LINE organises drawers and pull-outs in a practical way. High-quality stainless steel trays ensure clear visibility and easy access. The cross and lateral dividers can be adjusted to accommodate all storage items.

Practical kitchen accessories

The sophisticated kitchen accessories facilitate numerous kitchen tasks. Knives, plates, spices, cling film and aluminium foil can be stored in an organised way and are kept within easy reach at all times.
Runner systems ensure that wooden drawers and pull-outs open and close with ultimate ease to suit users’ requirements. Even heavily laden pull-outs have a featherlight glide and very good sag values. They bring enhanced ease of use to all living areas.
STANDARD

STANDARD is an exposed runner system with a tried-and-tested roller runner. It only has a few components so assembly is quick and simple.

MOVENTO

The MOVENTO runner system boasts a synchronised feather-light glide, 4-dimensional front adjustment and dynamic load bearing capacities of 40 kg and 60 kg.

TANDEM

TANDEM gives single and full extensions a feather-light glide and enhanced user convenience. Available with a locking device or hook & peg feature. TANDEM 19 mm is a runner system for wooden drawer sides with a thickness of 17 to 19 mm.

Pull-out shelf lock for MOVENTO and TANDEM

Quality of living meets design and convenience. We have developed a practical lock-open stop for pull-out shelves equipped with MOVENTO and TANDEM full extensions. The discreet and space-saving mechanism securely holds the pull-out shelf in place.

STANDARD

STANDARD is an exposed runner system with a tried-and-tested roller runner. It only has a few components so assembly is quick and simple.
Assembly must be precise to ensure top quality motion for lift, hinge, box and runner systems. Blum assembly devices make assembly precise, quick and easy. They meet the most stringent safety requirements.
Templates and jigs
Templates and jigs facilitate precise positioning and ensure that Blum products will function optimally. They can be used in workshops or directly on site.

Assembly devices
Assembly devices provide optimal assembly support. They are simple to set up and easy to use.

Drilling and insertion machines
Blum’s wide range of drilling and insertion machines provides users with the right solution for every assembly situation. Quick set-up and easy operation ensure the efficient assembly of all Blum fittings.
Total support – every step of the way

With E-SERVICES from Blum we can support you online, at any time and anywhere. Our services are geared directly towards your day-to-day work. Some facilitate individual tasks, others support you along several steps within the process chain. They will help you achieve the desired results more quickly and efficiently.

www.blum.com/services
Marketing

With Blum E-SERVICES you will have access to such things as product information and marketing documentation. In the Marketing Media Library you will find professional marketing materials such as high-resolution images, videos and brochures which are always up to date and available online at any time.

Product selection, planning and ordering

The Product Configurator is the fast and easy way to help you to find the right fitting solutions, create parts lists (with integrated collision check) or download product specific CAD data. Save and manage your planning results in ‘My projects’ and conveniently prepare your orders in ‘My order lists’.

Assembly and adjustment

The EASY ASSEMBLY app for mobile end devices provides fitters with useful instructions and videos directly on site. All information required for easy and precise assembly and adjustment of Blum products can also be accessed offline at any time.

CAD/CAM Data Service

The CAD/CAM Data Service enables you to download and use CAD and CAM data as a package or individually.
Blum’s ideas for practical homes

Tried and tested solutions make kitchens more functional and unique, creating rooms that are sure to impress. Join us on a journey of discovery to the world of creative furniture solutions for every home.

www.blum-inspirations.com
Geared towards kitchen users
Blum has been monitoring kitchen use and investigating the habits and work-flows of kitchen users all over the world for years. The insights gained are used to develop ideas and practical solutions that are tailored to the needs of kitchen users.

Functional kitchens
Kitchens have to withstand the rigours of everyday use. DYNAMIC SPACE gives you lots of ideas on how to maximise storage space, convenience and ergonomics in kitchens. Let us share our experiences.

Practical cabinet solutions
Want more space in your home? You’ve got it with our solutions. Be it the SPACE TOWER larder unit or the SPACE CORNER cabinet, our solutions create functional storage in previously unused spaces. And SPACE TWIN and SPACE STEP turn small spaces and cabinet plinths into valuable storage.
The company Blum

Blum in Austria and around the world

The company has eight plants in Vorarlberg, Austria, additional production sites in Poland, the USA and Brazil and 31 subsidiaries/representative offices. Blum supplies more than 120 markets. The Blum Group employs 8,000 people in total, 6,000 of whom work in Vorarlberg.

Global customer benefits

“Whether manufacturer, distributor, fitter or kitchen user – everybody should personally enjoy the benefits of Blum products” – that is Blum’s philosophy on global customer benefits.

Innovations

To support customers with innovative fittings solutions and secure long-term success for the company, we need to consistently invest in research and development, in plants and facilities and in employee training. With more than 2,100 granted patents worldwide, Blum is one of Austria’s most innovative companies.

Quality

Blum’s comprehensive concept of quality does not only apply to products. Services and collaboration with customers and partners should also meet the same quality requirements.

Environment

At Blum, we believe that responsible ecological behaviour has long-term economic benefits. The longevity of products is just one of many important aspects. Other important measures include the use of environmentally-friendly processes, the intelligent use of materials and prudent energy management.

DYNAMIC SPACE

Good workflows, optimum use of storage space and top quality motion are important features of a practical kitchen. Blum’s ideas for practical kitchens are designed to bring function, convenience and ergonomics to furniture interiors.
