Turn your inspiration into a reality: myLEGRABOX

www.blum.com

blum

We asked ourselves what would a drawer look like if we were given full freedom to design as we please? What colours, shapes and materials would we use for the drawer sides? What would leather, fabric, stone or rhinestones look like and feel like?

When we developed the new LEGRABOX range the first thing we did was to break away from convention and rethink design. But all of our discussions came back to one key question: what are the needs of our customers? So the next thing we did was check what you really want and what really benefits you. What is doable, useful and easy to manufacture and provides extensive design freedom with little effort?

These questions have led to the creation of a blank canvas for your ideas. We offer you new design options that give you the freedom to turn your inspiration into a reality. And make our box system your own. We present to you myLEGRABOX.

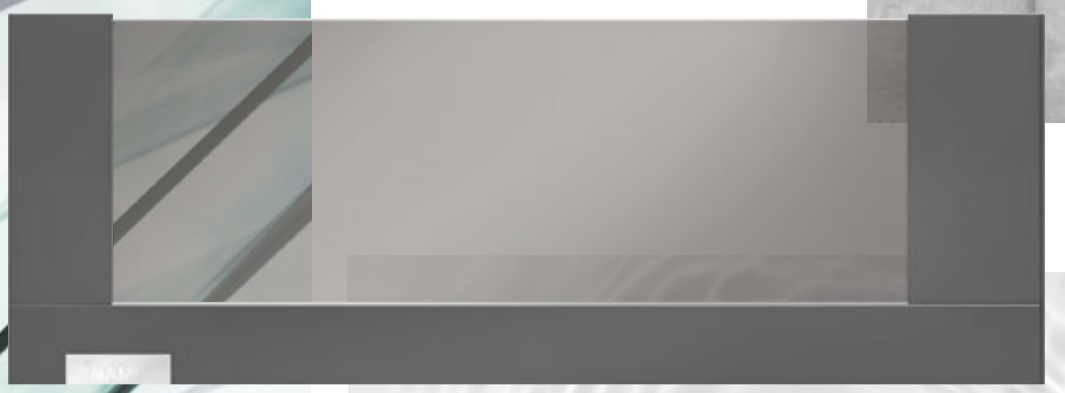
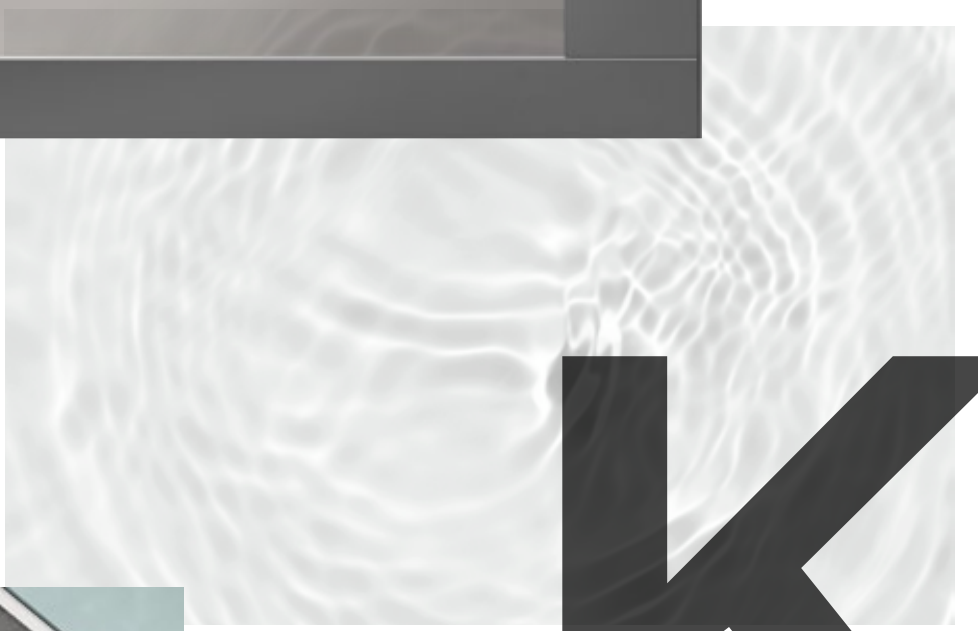
A true statement of beauty

Flowing lines, classic colours inside and out – monolithic drawer side LEGRABOX pure stands for timeless chic. Drawer side and branding element in orion grey matt blend into an elegant whole, your logo in silver adds a sleek accent.

A strong passion for clarity

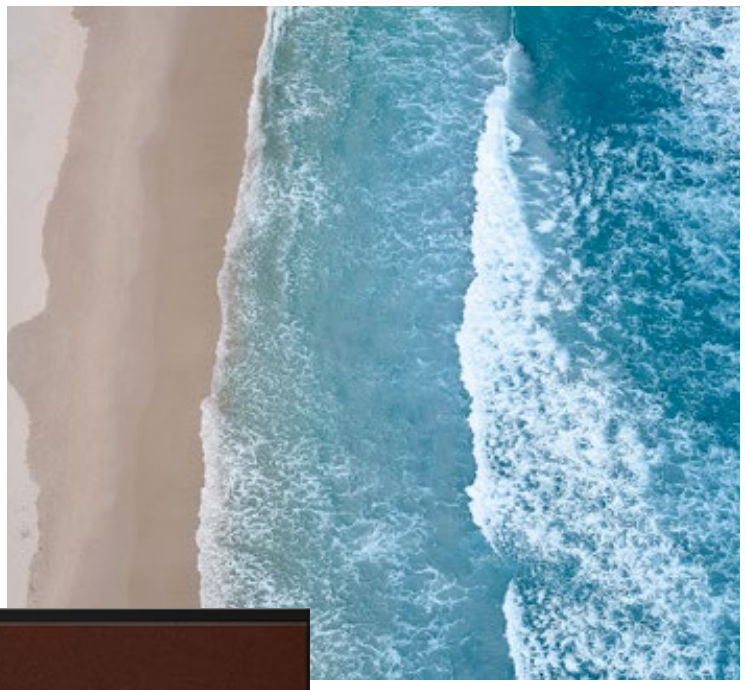
Why not provide better visibility? A drawer side in orion grey matt with an elegant design element made of smoked glass adds a refreshing accent to rooms with minimalist design. The branding element in anti-fingerprint stainless steel establishes a visual link to the kitchen front.

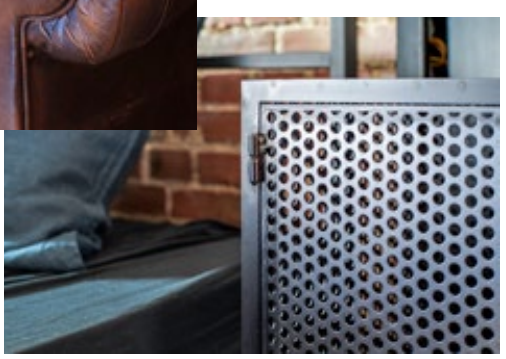


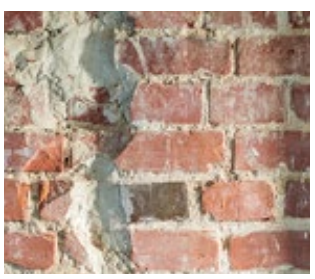


A sure sign of character

Beautiful interiors don’t always have to be glossy. Shabby chic is absolutely en vogue. A drawer side with a noble rust structured finish gives furniture a special look and feel.

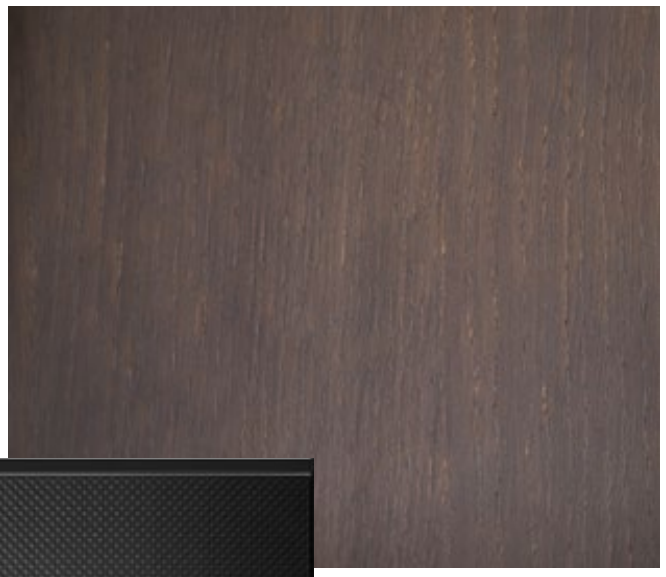


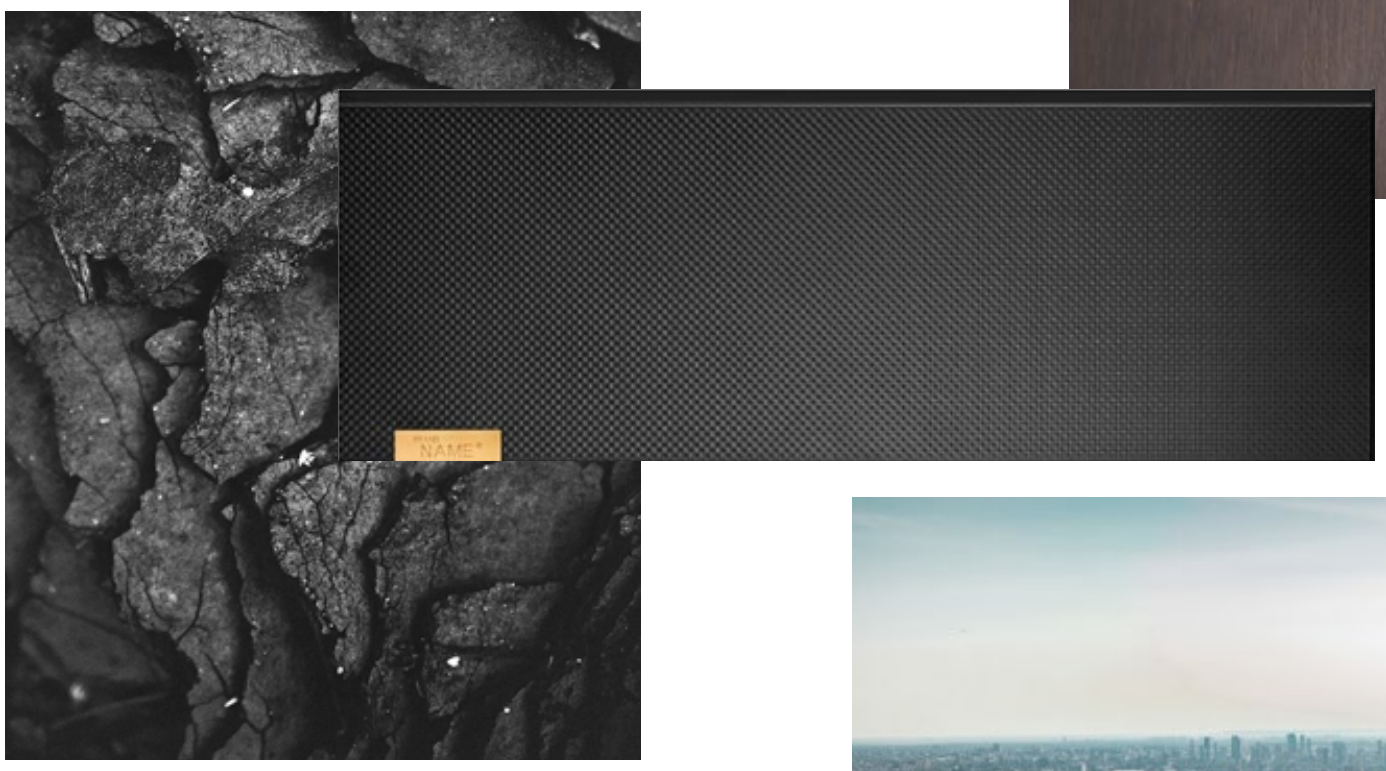


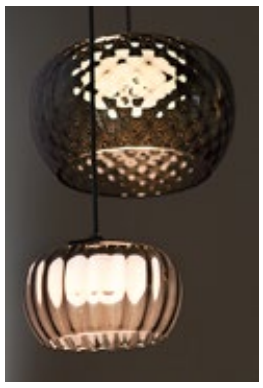


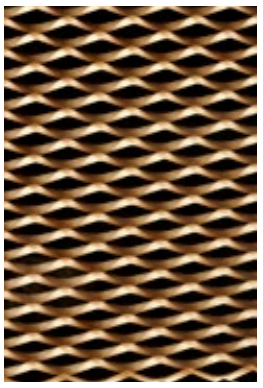
A beautiful expression of personality

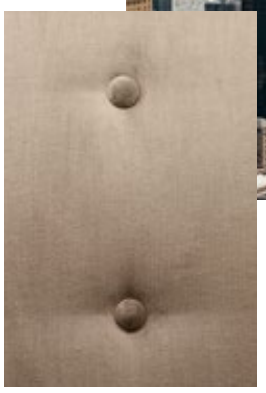
Touch-me textures, a captivating combination of dark colours. The carbon look in carbon black matt creates a sleek aesthetic, especially in combination with a branding element in gold. For living worlds that are coordinated down to the last detail.





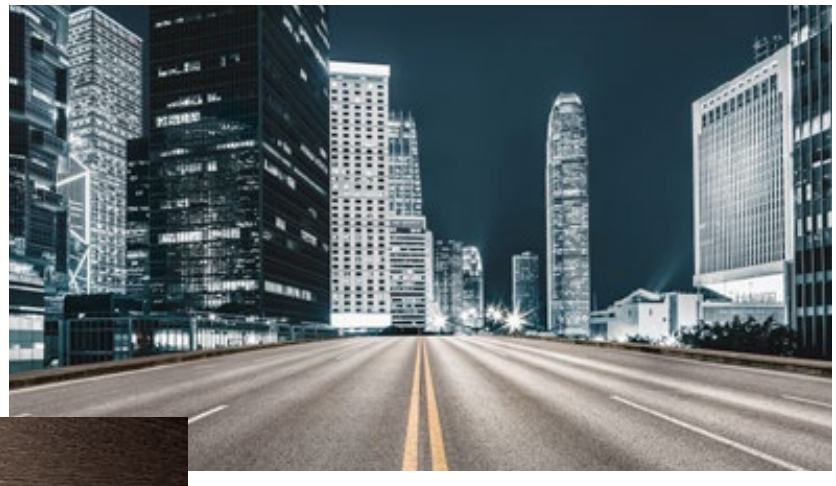


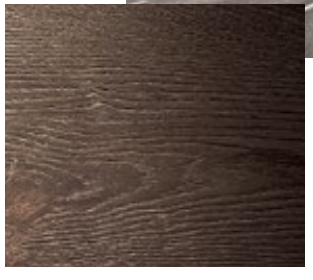




A classic touch of elegance

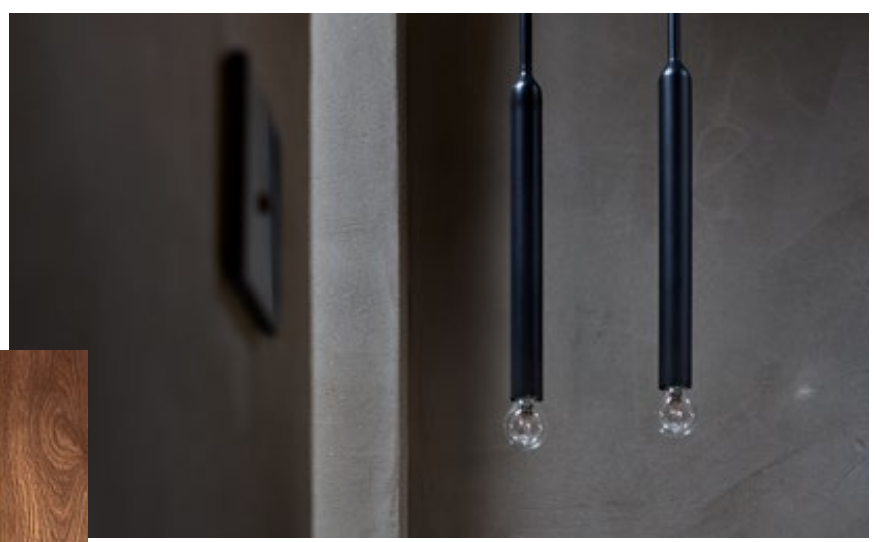
Metallic finishes paired with a muted palette – always a fascinating interplay of surface and colour. The high-gloss exterior in anti-fingerprint stainless steel creates a delightful contrast to the subtle carbon black matt interior.

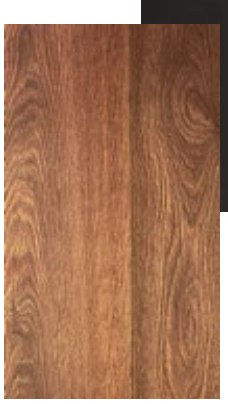




A minimalist sense of style

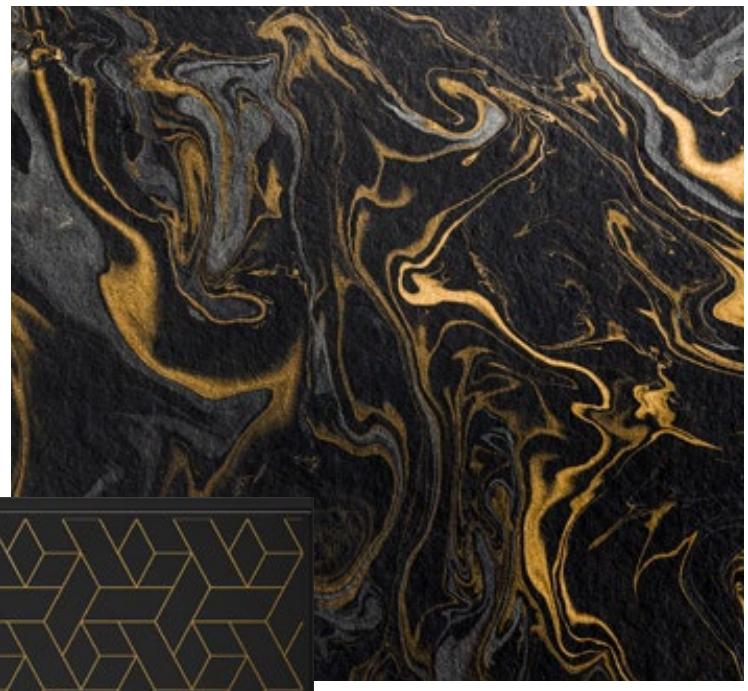
Small details can make a big impact. Especially with minimalist designs. The silk white exterior of the drawer side stands out against the wooden texture of the front and cabinet. The inner drawer side is finished in a subtle orion grey matt. The branding element effortlessly picks up the colour of the interior.

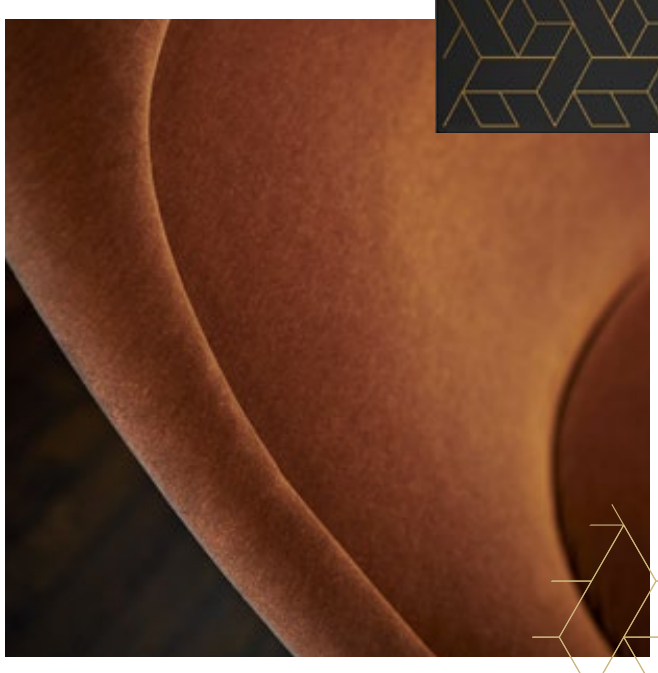


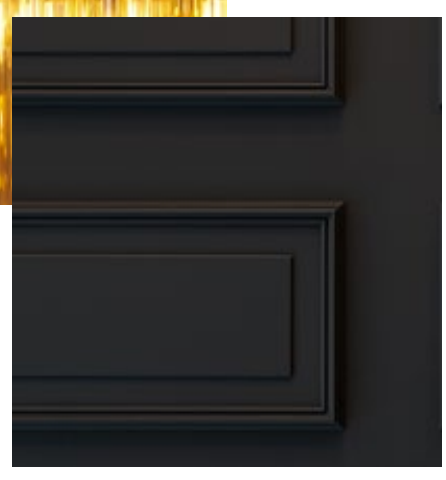


A trendy homage to nostalgia

The Golden Age is back – at least as far as home environments are concerned. The drawer side in carbon black matt is printed with a geometric pattern to provide a genuine wow factor.







A genuine commitment to naturalness

Light wood creates a fresh and friendly feel to any room. The black cabinet in the kitchen island provides a striking contrast to the Scandinavian look. The two are visually linked by the drawer side in orion grey matt with partial embossing.

As simple or bespoke as you wish

How special do you want LEGRABOX to be? You have three design levels to choose from. LEGRABOX pure and LEGRABOX free offer you a selection of noble matt colours – for elegant metal drawers. LEGRABOX pure also comes finished in high-quality anti-fingerprint stainless steel.

Go one step further with the LEGRABOX special edition. This colour coordinated collection features incredible looks based on the carbon black matt colour.

Experience the ultimate in design freedom with LEGRABOX individual. Mix colours and materials, use printing, laser texturing and embossing options to customise drawer sides – the freedom is yours. Give free rein to your creativity.

What inspires you?
Create your very own designs and turn LEGRABOX into myLEGRABOX with our Design Selector.

Branding element

Choose a branding element that best goes with your interpretation of LEGRABOX. We will have the logo printed or embossed in the colour of your choice. Opt for printing in silver, gold or copper to create impressive highlights and produce a unique design that underlines the quality of your furniture.

**Add the finishing touch with
a simple yet distinctive detail.**

New design freedom

LEGRABOX boasts many special features including stunning design, fascinating technology and enhanced ease of use. But it is above all the huge design freedom offered by our box system that makes it so attractive.

Your creative playground

When it comes to the design elements you can create to your heart's content.
Glass, wood, leather or stone are just a few of the options you have to add visual impact to LEGRABOX free.

2-shell drawer side design

LEGRABOX has 2-shell drawer sides. This means that you can use different colours and materials for the inner and outer drawer side.

Harmonious transitions
All LEGRABOX components are perfectly coordinated, creating harmonious transitions inside and out.

Customised branding
The branding element is an integral part of the LEGRABOX design. It can be printed with your brand name or logo. Keep it simple and discreet or make a bold statement. The logo can also be printed or laser engraved directly into the drawer side.

Stunningly beautiful design

Slim drawer sides

The customisable design of LEGRABOX supports the latest living trends and opens up a wide range of design possibilities. The side panels are straight (inside and out) and impressively slim (just 12.8 mm), blending in beautifully with all items of furniture.

12.8 mm

A pleasure to use

Find out more about the four motion technologies by Blum at: www.blum.com/4fm1

100,000
opening & closing cycles

Our pull-outs are designed to be opened and closed 100,000 times so that they are a pleasure to use for the lifetime of the furniture.

BLUMOTION by Blum	Mechanical soft close
SERVO-DRIVE by Blum	Electrical opening & soft close
TIP-ON BLUMOTION by Blum	Mechanical opening & soft close
TIP-ON by Blum	Mechanical opening

Blum's four motion technologies deliver effortless convenience to LEGRABOX. Adaptive BLUMOTION ensures that drawers and pull-outs close softly and effortlessly – even if fully laden drawers are slammed shut. Drawers and pull-outs open at a single touch with the SERVO-DRIVE electrical motion support system. TIP-ON BLUMOTION combines the advantages of the TIP-ON mechanical opening support system with tried and tested BLUMOTION for soft and effortless closing.

Fine engineering

LEGRABOX leads the way in terms of technology. Fitted with the BLUMOTION S cabinet profile, LEGRABOX boasts low opening forces, a synchronised feather-light glide and gives you the flexibility to implement three different motion technologies. The soft close function adapts to the motion technology employed.

Full load bearing capacity
LEGRABOX performs outstandingly even when fully extended and heavily laden. The cabinet profile also makes solutions near the floor possible thanks to its low sag values. Even very wide and heavy pull-outs have a smooth running action thanks to high dynamic carrying capacities of 40 and 70 kg.

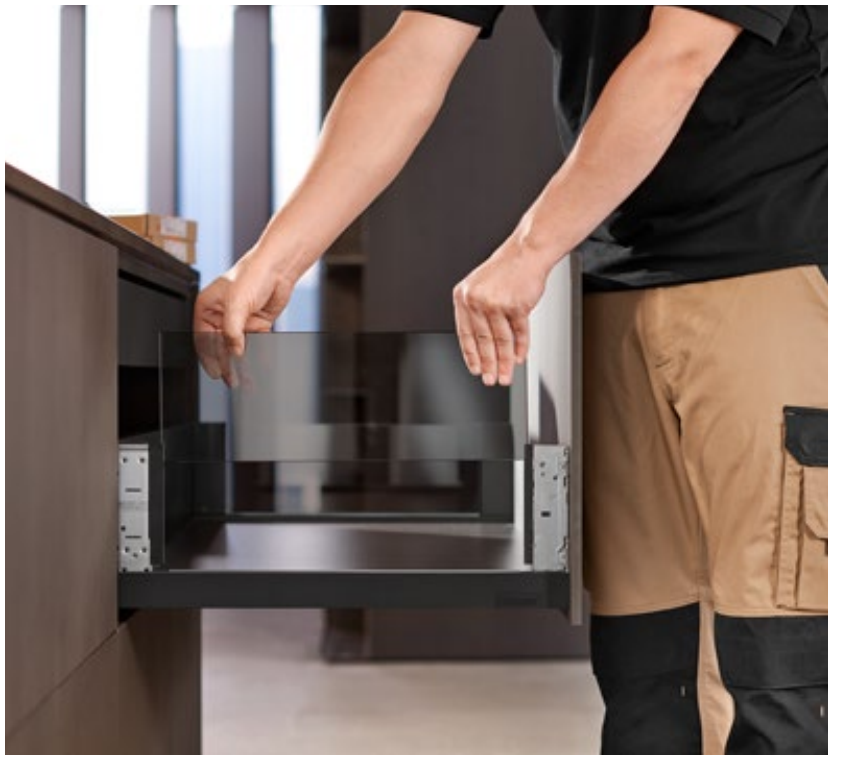
Stability for high fronts
High fronts are becoming increasingly popular as a design element. LEGRABOX meets this design trend with a special front fixing bracket that guarantees maximum stability when opening and closing drawers and pull-outs.

169 parts

The BLUMOTION S cabinet profile is well thought out down to the last detail. 169 component parts interact to form a functional unit.

Final assembly on site

You can either assemble LEGRABOX in your workshop or directly on site. On the one hand, this gives you the benefit of small minimum order quantities. And on the other, it provides maximum design freedom because you can wait until assembly to combine outer and inner drawer sides.

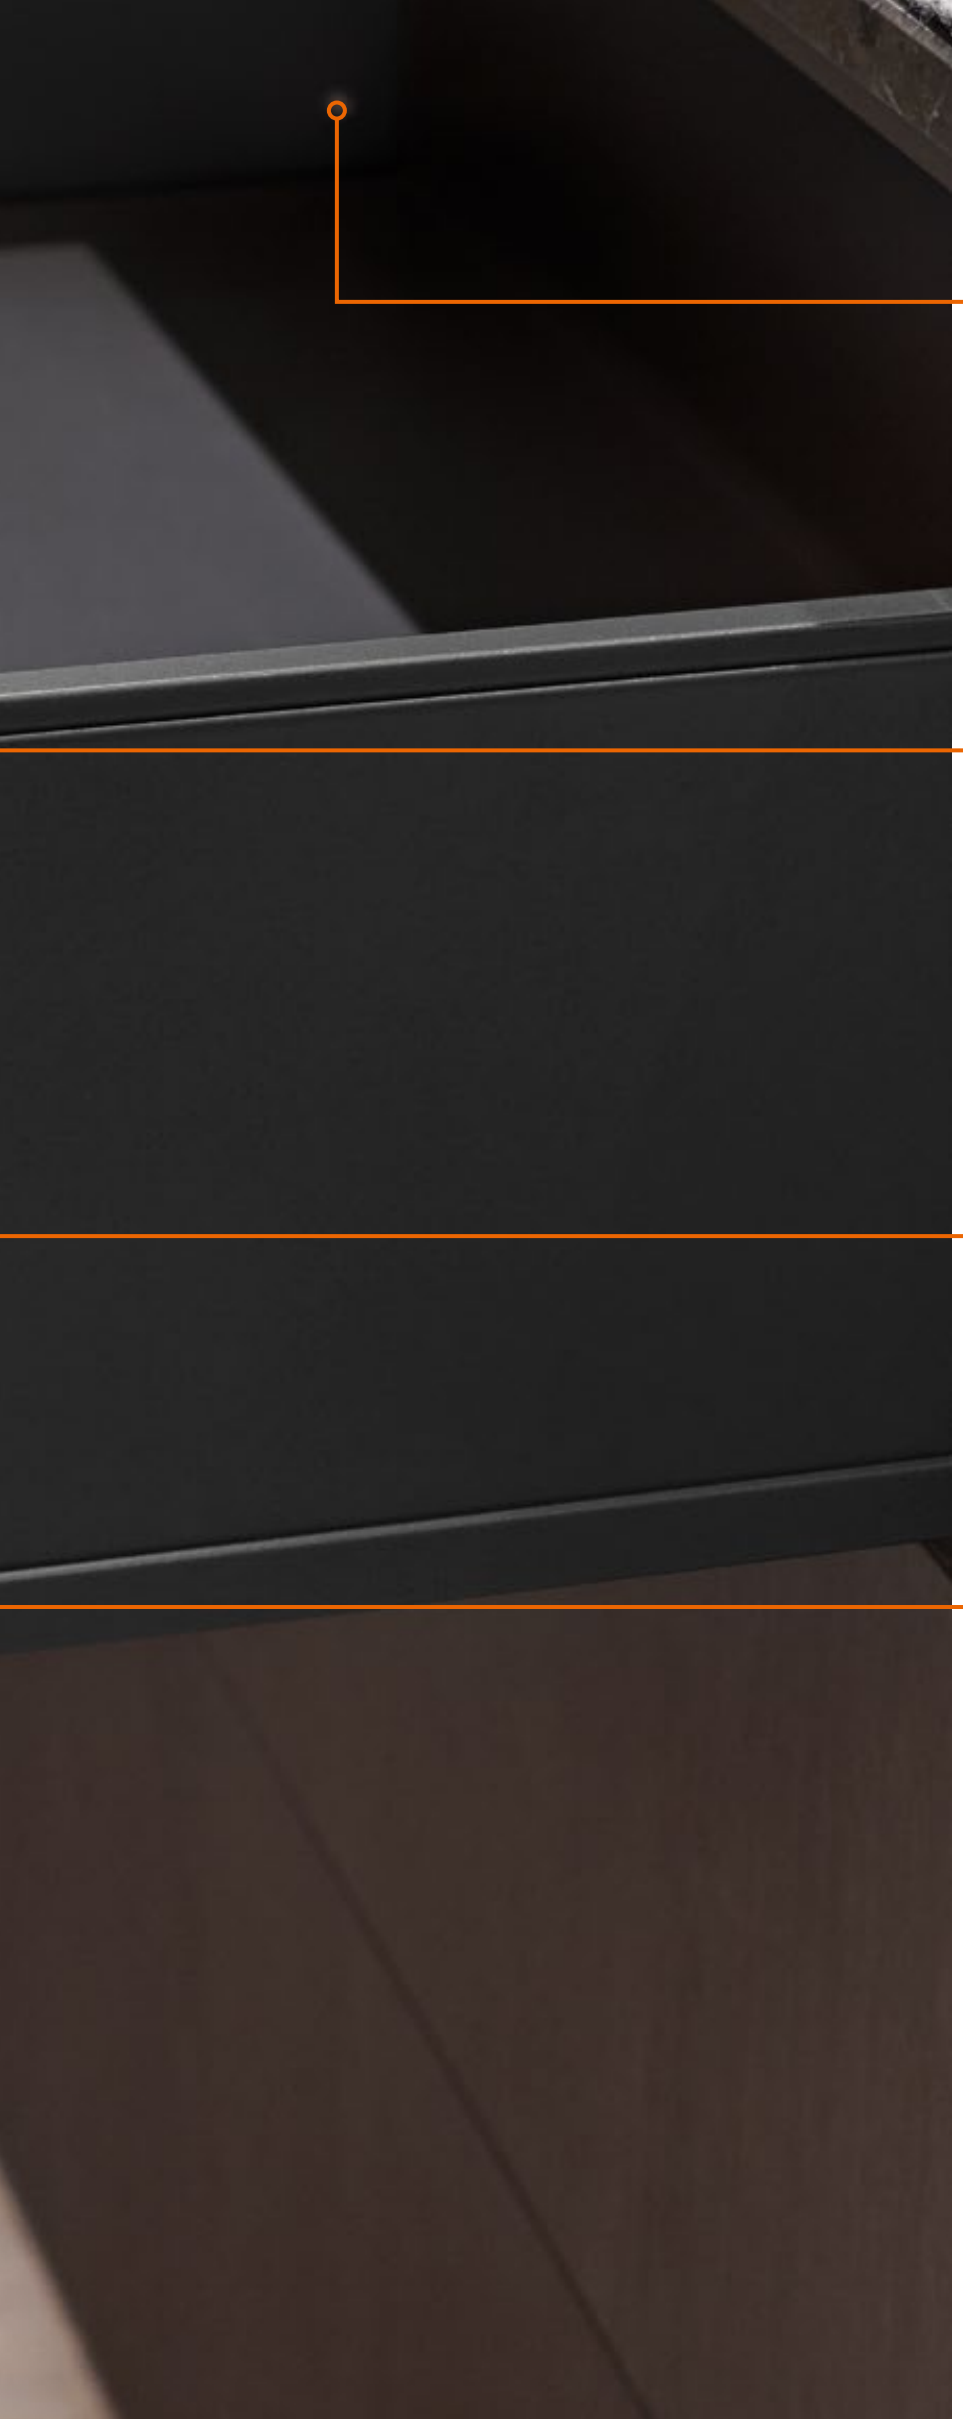


Design on site
Design flexibility up until the very last minute with customisable design elements that can be mounted with supreme ease.

Easy assembly
The inner and outer drawer sides are simply clicked together.

Maximum flexibility
The huge variety of colours opens up a multitude of options. This gives you flexibility right up to assembly.

Outstanding assembly flexibility



Tilt adjustment

LEGRABOX boasts 3-dimensional adjustment. Adjustment features are easily accessible. Tilt can be simply adjusted on the inner drawer side, at the back of the drawer or pull-out.

Height and side adjustment

The height (± 2 mm) and side (± 1.5 mm) can be adjusted using TORX screws to produce a precise gap layout.

Front assembly

The LEGRABOX front fixing bracket enables fast and above all safe assembly and removal. Insert the front in the holding position and simply clip on – done! You can also easily attach the front if the pull-out is already in place.

Easy removal

Even very wide fronts can be easily removed by a single person thanks to the holding position.

Amazing versatility

LEGRABOX special edition in the kitchen
You want a design that stands out and still looks harmonious and stylish. The carbon look in carbon black brings classic elegance to the kitchen.

LEGRABOX free in the bedroom and dressing room
Smooth running characteristics and soft and effortless closing make LEGRABOX the perfect choice for quiet living areas.

LEGRABOX pure in the bathroom
Very classic: Drawer side and AMBIA-LINE inner dividing system in orion grey matt. Bath utensils are exactly where they should be in LEGRABOX high fronted pull-outs.

LEGRABOX in home offices
Work is a lot easer if you feel at home.
Noble carbon black matt creates harmony.

LEGRABOX special edition in the dining area
The LEGRABOX carbon look in carbon black matt is a real eye catcher in the dining area.

LEGRABOX special edition
Welcome stylish elegance into your bar with a combination of carbon black matt on the inside and anti-fingerprint stainless steel on the outside.

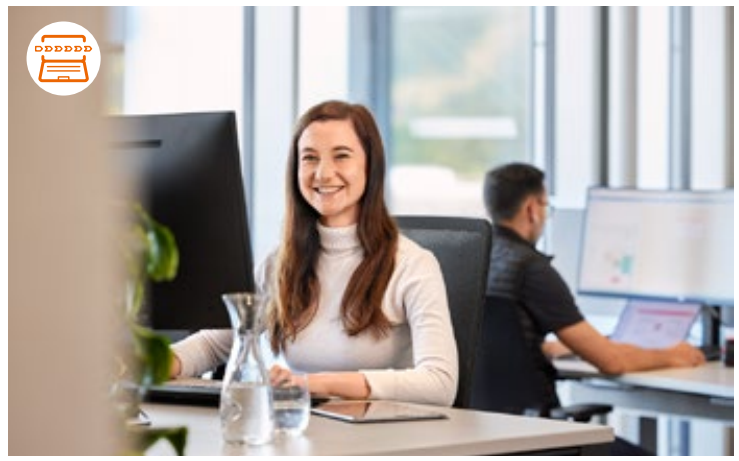
LEGRABOX free in the living room
Use a customised branding element and create visual impact with your drawer sides in living rooms.

Blum services

Your key to greater efficiency

What's the key to successfully implementing your projects? One factor is our high-quality products, and the other is the services we provide for them. They're precisely tailored to your needs along every step of your process chain, allowing you to work more efficiently and therefore save time.

Personal services
Direct contact for customer-focused support



Digital services
Digital support for greater efficiency

Logistics services
Optimised processes for fast delivery
