Quality for the lifetime of the furniture

Blum fittings should give pleasure for the lifetime of the furniture. We have put together some helpful tips to make cleaning them easier for you.

The best way to clean your Blum fittings is as follows:

- Use a soft, lint-free cloth, a chamois leather or a sponge
- Ensure that the material you use to wipe the furniture with is just damp, not wet
- Always wipe the furniture again afterwards with a dry cloth
- If possible, use cleaning products intended specifically for materials such as leather, stainless steel etc.; otherwise, use only clean water
- Wipe off dirt as soon as it appears

Avoid the following when cleaning Blum fittings:

- using steam cleaners
- using cleaning products, such as abrasive cleaning powder, steel wool and scourers, as well as cleaning agents, such as acetone, chlorine, cellulose thinner and solutions whose names start with tri or tetra
- storing open cleaning products, baking powder, dishwasher products or table salt, for example. Fumes can cause corrosion on all metal surfaces.

Quality for premium furniture

All Blum products are subject to extensive quality tests. They should give pleasure for the lifetime of the furniture. We provide you with practical cleaning information.
Ease of motion for your furniture

Blum’s innovative fittings solutions ensure fascinating motion and increase the level of comfort in all areas of the home, especially the kitchen. Many kitchen tasks are therefore made easier, more convenient and more ergonomic. Opening and closing furniture becomes an emotional experience.

We hope you enjoy your Blum products – for the lifetime of the furniture.
