Our family name inspires us to deliver meaningful products, ideas and services that transform the way people work. Our product development team considers all the various customers who will come in contact with our products.

Our Story
67 Years in Motion

When our founder, Julius Blum, created this company, he was making horseshoe studs in Austria. When horses were replaced by cars, Julius began looking elsewhere in the metal industry and began making a name for himself in the hardware industry.

Today, the Blum name stands for quality, innovation and great customer service. We manufacture hardware that makes working in the kitchen easier, no matter the age of the user, and we do this globally. We've been in the United States for more than 40 years, and we are committed to manufacturing for the American market.

Research
Innovation

Research and development has been at the core of our innovation for more than 50 years, and it is the framework for our success in the years ahead. We've spent years in the homes of kitchen users throughout the world to gain a better understanding of how people work in their kitchens and how they want to work in their kitchens in the future. The insights we gain help us develop new product ideas that are tailor-made solutions to common pain points. Our engineers are skilled at looking ahead, but also reviewing proven materials in order to make good products even better.

The AGE EXPLORER® simulates movement restrictions that can occur over time. Knowing today what will be needed tomorrow allows us to create innovative products that will last throughout the lifetime of a kitchen.
MOVENTO
The Evolution of Motion
MOVENTO is the latest advancement in concealed runner technology. This runner highlights all of the features, innovations and benefits that Blum has developed since first manufacturing drawer runners in the 1960s. MOVENTO runners come standard with a smooth running action and BLUMOTION soft close. MOVENTO waste/recycle sets are pre-assembled sets for waste drawers. They feature an over extension and come in multiple sizes to accommodate bigger families and busy kitchens.

- Smooth running action with BLUMOTION soft close
- Advanced Motion Technology for smooth running action
- High load capacities
- Light opening forces (ADA compliant)
- Four dimensional adjustment
- Full extension
- Designed for frame and frameless cabinets

TANDEM
TANDEM plus BLUMOTION concealed runners are made in the USA at our North Carolina facility, specifically for the U.S. market. This is just another example of Blum’s commitment to manufacturing products in the U.S.

- Smooth running action with BLUMOTION soft close
- Four dimensional adjustment
- Full extension
- Standard and heavy duty versions
- Compatible with MOVENTO drawer boxes

TANDEM edge
Tried. Tested. Proven.
TANDEM edge BLUMOTION runners bring together Blum’s innovation and experience in an economical solution for wood drawers. Holding up to 75 pounds of storage goods, these runners perform smoothly no matter how many times they’re opened and closed.

- Smooth running action with BLUMOTION soft close
- 7/8 extension
- Compatible with MOVENTO drawer boxes
