

TANDEMBOX antaro

Clear-cut and rectangular

Mutual trust develops and grows

A reliable product, bespoke services, stringent quality standards, award-winning design and consistent development – these are the foundations of a successful partnership.

Proven a million times over, TANDEMBOX antaro fits the bill in every way, and has done so for decades. Our double walled box system is not only an unrivalled technological success; it is also a milestone in our corporate history. The trust you place in our product confirms that we are on the right track. We have further developed TANDEMBOX antaro and streamlined the range. This means you need less warehouse space and can further improve inventory efficiency.

Inspire your customers with our box system and rest assured that we will not stand still. We are always looking to drive innovation and enhance established products.

Proven a million times over – TANDEMBOX cabinet profile

All TANDEMBOX antaro applications are based on the tried and tested TANDEMBOX cabinet profile. Its feather-light glide has impressed users for decades. Low-friction cylindrical nylon rollers are designed to withstand loads of 30 and 65 kg and deliver top quality motion for the lifetime of the furniture. This promise is guaranteed by rigorous quality controls that go beyond legal requirements and international standards.

Opening and closing ease

Motion technologies by Blum ensure top quality motion and ease of use day in, day out. Be it mechanical or electrical – drawers and pull-outs equipped with Blum motion support systems seem to open and close by themselves.

Timeless – Rectangular design

TANDEMBOX antaro is characterised by its clear-cut design and rectangular gallery. This means you can carry minimalist design through to pull-outs and drawer sides.

The bevelled top edge of the drawer side (A design) continues the linear look of the rectangular gallery.

Harmonious – Two colours, one style

The minimalist design of TANDEMBOX antaro is based on clean lines and a sleek colour scheme. All nylon components are colour coordinated with the drawer sides. The colour range includes two options in steel: silk white and white aluminium.

**Multifaceted –
One solution,
countless options**

TANDEMBOX antaro gives you an entire range of pull-outs and drawers to choose from. Be it in the kitchen, bathroom or living area – TANDEMBOX antaro offers the right solution for any application.

Drawer sides also come in different heights, making it easy to turn customers' wishes into reality.

Nominal lengths	270 – 650 mm
Cabinet widths	275 – 1200 mm
Drawer side heights	N (68.5 mm) M (83.6 mm) K (115.6 mm)

Blum services

Your key to greater efficiency

What's the key to successfully implementing your projects? One factor is our high-quality products, and the other is the services we provide for them. They're precisely tailored to your needs along every step of your process chain, allowing you to work more efficiently and therefore save time.

Personal services

Direct contact for customer-focused support

Communication services

Comprehensive material for targeted marketing

Logistics services

Optimised processes for fast delivery

Digital services

Digital support for greater efficiency

Assembly devices

Practical tools for precise work

Find the right services to suit your requirements:

Fast and straightforward – Assembly devices

Our goal is to provide you with the best possible service. This includes support with the manufacture of our products.

Practical assembly devices tailored to your production requirements optimise the assembly of Blum box systems. This also applies to smaller production runs.

You will find our assembly devices here:
www.blum.com/vh638

With BOXFIX plus, TANDEMBOX antaro components are pneumatically clamped and then screwed together quickly and efficiently. Easy setup and pre-set stops save time and improve assembly quality.

Simple and tool free – Assembly

Thanks to tried and tested INSERTA technology, the gallery and front can be assembled without tools.

The gallery rail can be quickly clipped onto the back.

Simple tilt adjustment allows you to align gaps in no time.

Creating TANDEMBOX antaro couldn't be easier!

Organisation and visibility – Inner dividing system

ORGA-LINE

The high-quality inner dividing system works wonders on the interiors of drawers and high fronted pull-outs. Whether chopping boards, cutlery, bottles or pots and pans, all items are held securely and immediately to hand. Give yourself clear visibility and tailor your storage space to your needs.

Extra storage – One system, multiple solutions

TANDEMBOX antaro allows you to implement clever cabinet solutions that provide practical storage space. SPACE STEP, for example, creates additional storage in the cabinet plinth and makes it easier to reach items in wall cabinets. SPACE TWIN and the U-shaped sink pull-out make full use of every inch of space available. And the SPACE TOWER larder unit provides ample space and easy accessibility to all storage items.

SPACE TOWER – Larder unit

The ultimate solution for larder units: ample storage space, inner pull-outs that can be tailored to your storage space needs and access to items from all three sides. This is the convenient and ergonomic way to store provisions. Thanks to full extension, you have easy access to all contents from the left, right and even from the front.

SPACE STEP – Plinth solution

Nice and high

You have to use every inch of space in compact homes. SPACE STEP allows you to use the space right up to the ceiling. The new plinth solution gives users easy access to the top shelves of wall cabinets.

Find out more about SPACE STEP here:
www.blum.com/step638

Nice and practical

You need the right furniture for customers who want to store lots of things. SPACE STEP not only allows you to use higher cabinets, but also creates extra storage space in the toe kick of base units. Two solutions rolled into one.

Sink cabinet – Don't waste an inch of space

Organise your under-sink space

The U-shaped pull-out puts the space to the left and right of the sink to best possible use. It's ideal for clearing away sponges, washing-up liquid and tabs. This pull-out is recommended for cabinet widths of 900 mm or more.

Extra storage space

An additional inner pull-out provides plenty of space for cleaning utensils such as sponges, cleaning cloths and bin liners.

Nice and clean

The full extension makes it easy to throw away waste, empty and clean waste bins. Practical inner dividing systems such as ORGA-LINE ensure that cleaning products are held securely.

SPACE TWIN – Narrow cabinets

A practical solution for small storage spaces

Narrow cabinets turn tiny kitchen spaces into valuable storage. Blum's SPACE TWIN with diagonally offset runners creates additional storage space – without compromising stability or quality of motion. This is the ideal place to keep narrow items such as bottles, chopping boards, spices and baking trays.

Find out more about SPACE TWIN here:
