

The New ECODRILL

Optimized and better than ever!

We have optimized our tried-and-tested ECODRILL assembly device by adding several new functions to make installing Blum hinges even easier. From workshop to construction site, the new user-friendly ECODRILL will make your work considerably easier thanks to numerous handy features as well as an ergonomic and compact design.

ECODRILL boasts the following new functions:

- One-handed clamping
- Easy adjustment to material thickness
- Easy setting of drilling distance
- Side stops for setting standard distances
- Dust extraction compatible
- Integrated mounting plate template for consistent installation of hinges
