10ct

Angle restriction clip for
COMPACT BLUMOTION & COMPACT CLIP

WARNING: CHOKING HAZARD — Small parts. Not for children under 3 years.

Tools (not included)

Cordless drill
(Required)

#2 Phillips Screwdriver
(Required)

#2 Phillips head bit
(Required with drill)

NOTE: This product is **only for hinges with integrated BLUMOTION (soft close)** and used to restrict the door open angle of your cabinet doors.

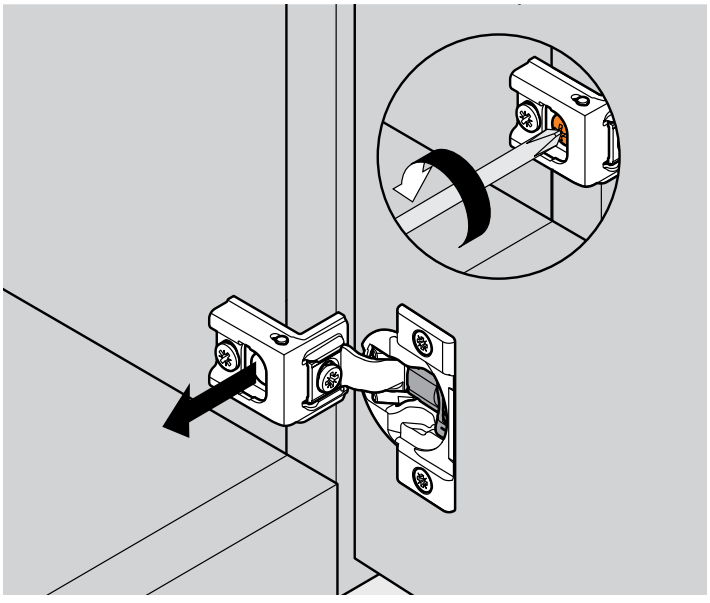

1. Detach door from cabinet frame

1a.

For COMPACT BLUMOTION (soft close) hinges, use your screwdriver or drill to loosen and remove the mounting screw.

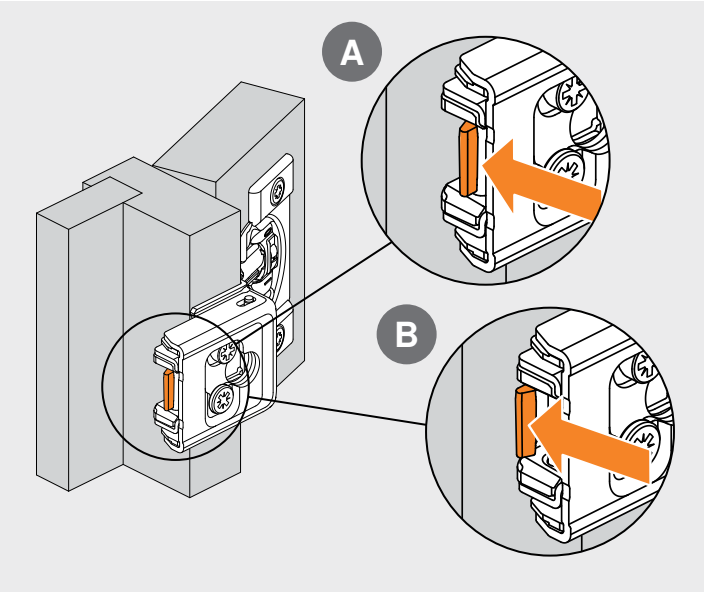

Repeat for other hinges until door is completely detached.

For COMPACT CLIP see step 1b.

1b. For COMPACT CLIP, locate the CLIP release lever on the back of hinge (A), and press down to release (B).

While the CLIP release lever is down, pull door away from the cabinet frame/cabinet opening to unclip hinge from frame.

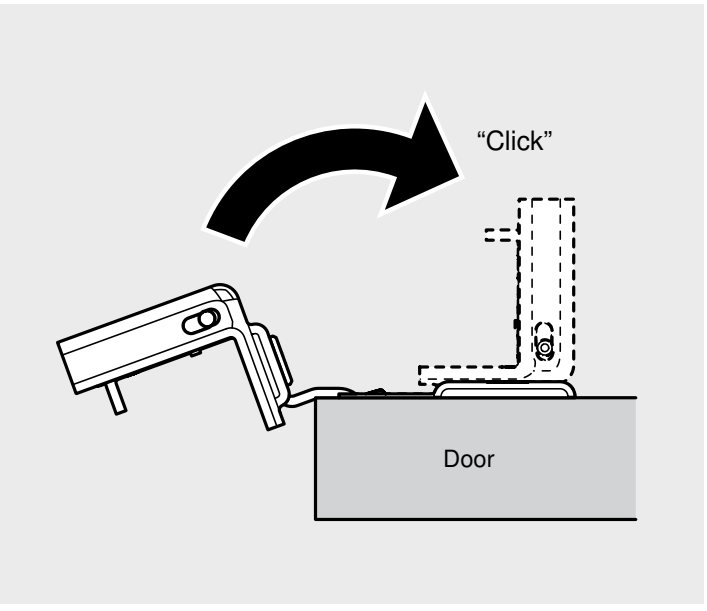

Repeat for other hinges until door is completely detached.

2. Rotate hinge arm to closed position

Rotate hinge arm to closed door position.

NOTE: Hinge cup remains attached to door for the full installation.

3. Install angle restriction clip

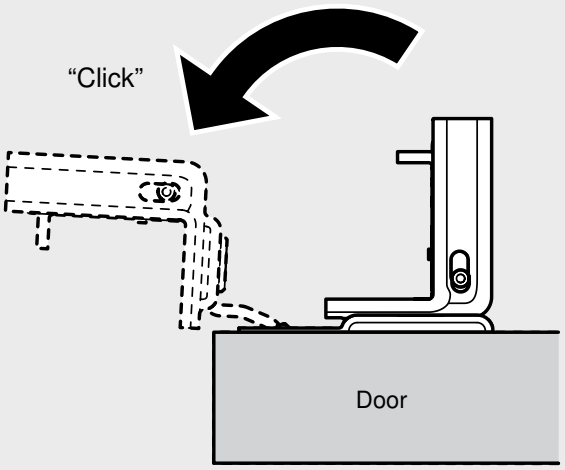

Place the angle restriction clip into the base of the hinge arm. Repeat for every hinge on door.

NOTE: Restriction clip reduces door opening angle to 86°.

4. Rotate hinge arm to open position

Rotate hinge arm to open door position to secure the angle restriction clip in place.

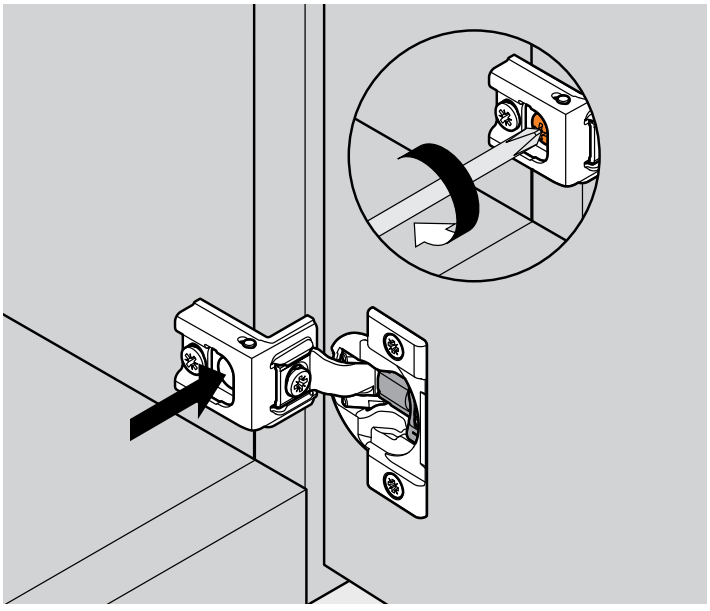

5. Attach door to cabinet frame

5a.

For COMPACT BLUMOTION (soft close) hinges, insert and tighten mounting screw using your screwdriver or drill.

Repeat for other hinges until door is completely attached.

For COMPACT CLIP see step 5b.

5b.

For COMPACT CLIP, ensure your hinge is aligned to the CLIP mounting plate.

Push hinged door diagonally towards the cabinet frame until hinge securely clips into place.

Repeat for other hinges until door is completely attached.
