

Reattaching the clip mechanism to the hinge

Please be sure you did **not** remove the clip mechanism from your hinge. (Skip this portion if your mounting plate is still attached to the hinge). If you **did** remove the clip mechanism from your hinge, you will need to reattach this part to continue forward. Please refer to the instructions below.

The "U" shaped cutout (C) in **figure 1** needs to be inserted around the pin (C) in **figure 2**. Once the mechanism is lined up with the screw hole (B) in **figure 2**, please reinsert the screw.

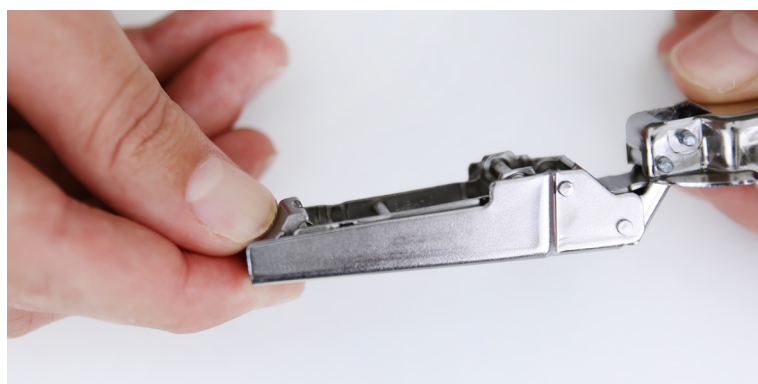

- A** Clip mechanism
- B** Screw
- C** "U" shaped cutout

Removing the original mounting plate

Do not remove your original mounting plate by removing the screw

Remove your original mounting plate by squeezing the lever on the back of the hinge

Squeeze lever while pulling the mounting plate away from hinge

Attaching the clip mounting plate

Attach the clip mounting plate

Squeeze hinge and mounting plate together

Mounting plate will snap on to hinge
