for stay lifts

- Ideal for cabinet heights up to 600 mm in wall cabinets
- Suitable for wall cabinets with cornice or crown mouldings
- Easy opening, variable stop and silent and effortless closing thanks to the integrated BLUMOTION dampening
- Harmonious gap design thanks to convenient 3-dimensional front adjustment
- Fast assembly and removal of the front using CLIP technology
- Combined with SERVO-DRIVE or TIP-ON for handle-less fronts

Product overview

Blum AVENTOS HK top for stay lifts. Compact stay lift fitting with internal minimum depth of 187 mm. For thin fronts from 8 mm, wooden, wide/narrow alu frame fronts, mitred and rebated applications. Symmetrical lift mechanism with spring package. Lift system can be stopped in any position using variable lift mechanism strength adjustment. Convenient lift mechanism adjustment from the front. High stability even for wide fronts. Integrated closing dampening. Integrated safety feature prevents the lever from being opened unintentionally. Integrated, variable opening angle stop. Simple, tool-free fast installation of the front using clip-on assembly method. Lift mechanism can be attached to the cabinet side before assembly. No parts projecting beyond the cabinet side. Can be combined with the electrical motion support system SERVO-DRIVE or the mechanical motion support system TIP-ON. No hinges required. For cabinet heights from 205 mm to 600 mm. For cabinet widths up to 1,800 mm. Convenient three-dimensional front adjustment using Torx screws: Height ± 2 mm, Side ± 2 mm, Depth ± 2 mm.

Straightforward, minimalist cover cap made of nylon in

- a) silk white
- b) light grey
- c) dark grey

Optional use with Blum fixing system "EXPANDO T" (ID20279) for thin fronts measuring 8 mm and above.

Equipment options

- ▶ ID20284 SERVO-DRIVE for AVENTOS top
