## REVEGO duo + duo, two double doors combined

- REVEGO can be used in all living areas
- Freedom to design the furniture around the pocket
- Full integration of fittings in pocket construction
- Faster and easier installation thanks to pre-assembly
- Easy planning thanks to fixed pocket widths
- REVEGO uno and REVEGO duo can be combined as required

### Product overview

Blum REVEGO duo + duo pocket door system for two double doors combined. Fitting for four fronts. Front widths from 442 to 748 mm, front heights from 1,800 to 2,980 mm and front thicknesses from 18 to 26 mm. Maximum front weight up to 35 kg per front. Possible installation position, double door right and left. Fixed pocket widths of 150 mm. For solutions with internal cabinetry or as a walk-in solution with an internal width of up to 2,700 mm. Installation dimensions: width 1,800 to 3,000 mm, height 1,820 to 3,012 mm, depth from 573 mm. Different nominal lengths allow for flexible adaptation to the respective installation situation. Can be implemented with or without a plinth/base construction. Housing for electrical appliance switch-off with magnetic contact possible. Additional scuff guard for front thicknesses from 23 mm. Easy opening and closing. Can be planned with or without a handle. TIP-ON motion technology ensures enhanced user convenience. Full overlay fronts conceal the pocket completely.

Easily accessible and intuitive height, side, tilt and depth adjustment. Large adjustment range ensures a perfect gap layout. Fittings can be easily removed (even from built-in furniture) thanks to an integrated service interface. Certified durability of 40,000 opening and closing cycles.
