

SERVO-DRIVE uno for AVENTOS

Electric motion support system for
single lift systems

www.blum.com

 **blum**[®]

Convenient operation for single lift systems

SERVO-DRIVE uno for AVENTOS is an ideal motion support system for wall cabinets when only one lift system is going to be operated electrically. Powered by the Blum power supply (12 W), the lift system opens with a single touch and closes silently and effortlessly thanks to BLUMOTION.

AVENTOS HK top

Closes at the touch of a button

To close the front, simply touch the button on the SERVO-DRIVE switch, which is within easy, ergonomic reach on the cabinet front edge.

Reliable stop function

Even if the close button has already been pressed, the lift system will stop safely with minimal resistance.

Manual operation

You can operate the lift system by hand at any time without impairing the function.

12-Watt Blum plug-in transformer

Only suitable for one drive unit

Power adapter (x)
