

**REVEGO –  
Pocket systems for  
new space concepts**

reddot winner 2022

What should homes look like? How do we want to live? Our needs are in constant flux. We're not only influenced by personal preferences but also by developments such as digitalisation and smart solutions, homing, cocooning and the trend towards open plan living. However, homes also need to be compact, tidy and space efficient. Increasing urbanisation and densification in cities will likely lead to smaller homes in the future.

Our Requirements Research Department has monitored the use of living space over the decades. The trend towards the integration of living areas has prompted us to develop a solution that meets the high demands placed on modern living concepts. Our Research & Development team has worked hard for many years to create a new product category called pocket systems. Pocket systems make it possible to quickly and intuitively open up entire spaces when needed, and close them off again when not in use. The innovation opens up completely new perspectives and endless design options. It allows you to create stunning interiors with consummate ease – be it a run of kitchen cabinets, a home office or utility room.

Thanks to simple planning and fully integrated technology, REVEGO is the solution for creating flexible and responsive living space.

# New perspectives

Our new product category called pocket systems opens up completely new perspectives. REVEGO by Blum is the ideal solution for creating multifunctional living space. REVEGO is a unique sliding door system with fully integrated technology. No matter whether single or double door application, the full overlay fronts disappear into a dedicated narrow cabinet, the pocket.

**Versatile**

REVEGO uno and REVEGO duo can be combined as required.

**Practical**

The fittings technology is fully integrated into a tall narrow cabinet.

**Concealed**

The full overlay fronts fully conceal the pockets when closed.

**Flexible**

Double doors can be 450 to 750 mm wide and single doors 450 to 900 mm wide. Heights of 1800 to 3000 mm are possible. With a front thickness of up to 26 mm, the weight per door can be up to 35 kg.

**“For me, spaces are forms  
of possibility. And spaces  
of possibility are where  
the future is made.”**

**Klaus Kofler, Futurologist**

**Let's shape future  
spaces together.**

REVEGO

## Ready-to-install solution

What is so innovative about REVEGO? Our well-thought-out solution has all essential components integrated into the pocket system. This means there is no hassle of transporting individual component parts or assembling them at customers' premises. Instead you can easily pre-assemble the tall cabinet in your workshop or plant and simply transport the product to its final destination.

Installation and adjustments:  
[www.blum.com/revmv](http://www.blum.com/revmv)

### **Efficient**

Pre-assembly makes installation on site child's play.

### **Cost-effective**

Simplified processes save time and consequently money.

## Design freedom

Standardised pocket widths make planning simple. No matter whether single door or double door application – REVEGO can be integrated in a kitchen layout or incorporated next to fitted furniture in no time. Systems to conceal runs of cabinets or walk-in solutions such as dressing rooms or pantries are easy to implement.

### Integral

The pocket has a fixed installation width of 100 mm for REVEGO uno and 150 mm for REVEGO duo.

### Convincing

REVEGO gives you the freedom to design the furniture around the pocket exactly as you wish.

## Easy installation

REVEGO also stands for quick and easy installation: Put up, align and mount pre-assembled pockets, install fronts and track, make quick adjustments – and that's it!

### **Straightforward**

Pocket systems can be fitted quickly and simply like any standard tall cabinet.

### **Convenient**

The 3-dimensional adjustment options are easily accessible and intuitive to use.

### **Effortless**

Individual fittings can be easily disassembled (even from built-in furniture) thanks to an integrated service interface.

## Intrinsic value

REVEGO is so simple to implement that you might not realise the complexity that lies within our innovative fittings solution. Our pocket system epitomises the quality and technical expertise that Blum stands for. Easy living at its best!

### Well thought out

The extraordinary engineering that has gone into our pocket systems is concealed from view.

### Multifunctional

REVEGO turns one room into two, or vice versa if required.

REVEGO

TIP-ON

by Blum

## Inspiring moments

REVEGO boasts the top quality motion and user convenience you have come to expect from Blum. Users will be inspired by the ease with which large fronts open and close.

### Intuitive

Fronts open with a single touch thanks to the TIP-ON motion technology.

### Easy

A simple push with your finger suffices to eject the door from the pocket. And it closes again softly and with effortless ease.

# Welcome support

Existing Blum customers already know that we not only offer a comprehensive range of products but also provide complementary E-SERVICES – from planning to assembly.

## Digital

Our Product Configurator helps you to select the right products quickly and efficiently.

## Useful

You receive checked parts lists, comprehensive planning information and CAD data which you can use in your own design software or for CNC machines.

# Unbounded creativity

More and more people are merging their kitchen, dining, living and working space. This trend places high demands on modern living concepts. The ability to quickly open up complete living areas when you need them, and close them again when they are not in use helps to create a homely atmosphere. REVEGO opens up completely new design possibilities for small and large rooms. You can give free rein to your creativity.

REVEGO

**“A perfect wall is a wall  
that’s there when you  
need it and disappears  
when you don’t.”**

**Markus Gull, Screenwriter**

**Give free rein to  
your creativity.**

REVEGO

**blum**

Tucked away and yet immediately to hand.  
REVEGO is the solution for creating amazing hallways.  
It is ideal for concealing bulky objects.

A home office can be magicked into existence with a single touch. After work is done, you can quickly return the space to a cosy living environment.

Doors can be opened or closed depending on whether you want a relaxed vibe or a tidy space.

There is no better way to wind down after a hard day than with a glass of wine. Easy with a touch-to-open home bar.

**“The perfect wall?  
I might have just  
seen it.”**

**Patrick Lüth, Architect**

**What possibilities  
do you see?**

REVEGO

# moving ideas

Regardless of the ideas you have, we have the products and services to help you make them a reality. REVEGO inspires new approaches to planning and furniture construction to create new sensations and a better quality of living. Our high-quality pocket systems make planning and assembly easier than ever before for manufacturers, while offering users completely new levels of convenience. Day after day.

## Quality of living

We would like you to enjoy greater convenience and functionality when using furniture.

## Product range

Everything from a single source: our wide range of products allows you to keep up with today's and tomorrow's trends.

## Inspiration

We monitor global trends and strive to create the solutions of tomorrow. We like to share our insights with you.

## Innovation

We stay in motion. Curiosity and pioneering spirit drive us to develop new products and services for you.

## Services

We support your daily operations with customised services tailored to your processes.

## Quality

We continuously strive to improve our products, services and ourselves.

## Trust

We take responsibility for partnerships, our employees, society and the environment.

Julius Blum started our journey in 1952 with horseshoe studs. Today we supply innovative fittings to customers in over 120 countries.
