 **blum**[®]

You don't change your furniture fittings vendor just like that – you make a conscious decision. You think about the product range, develop new concepts and adapt your own processes. You engage with the supplier. It's a big step to take.

You can put your trust in us and rest assured that we will support you in every way we can. You have our promise that we will never stop coming up with innovations to help you realise your creative furniture ideas. Fittings that enable you to create functional and beautiful furniture. Solutions for modern, multifunctional living spaces. And we also promise to optimise our existing products on an ongoing basis.

We don't see ourselves merely as vendors, but as partners working in tandem with you. With a comprehensive package of products and matching services.

Lift systems for more freedom of movement

AVENTOS lift systems deliver top quality motion and enhanced ease of use to any wall cabinet. Be it overhead cupboards in kitchens or other living areas, with large or small fronts, all wall cabinets equipped with AVENTOS open with utmost ease and close again softly and effortlessly with integrated soft-close BLUMOTION. Fronts glide up and out of the user's way, providing full freedom of movement.

Find more information about our lift systems at:

www.blum.com/liftsystems3

AVENTOS HF top – bi-fold lift system

The solution for high wall cabinets with bi-fold fronts. Little space is needed above the cabinet.

AVENTOS HS top – up & over lift system

The ideal fitting for large fronts. There is enough space above the cabinet for cornice or crown mouldings.

AVENTOS HL top – lift up

Suitable for tall units or wall cabinets with cabinets positioned above them. AVENTOS HL can also solve tricky installation situations, e.g. integration of electrical appliances.

AVENTOS HK top – stay lift

Compact, minimalist and highly functional. Small but strong, it is suitable for both small and large wall cabinets. Comes with an integrated opening angle stop and safety mechanism.

AVENTOS HK-S – small stay lift

The right solution for small wall cabinet fronts, e.g. above larder units or refrigerators. The compact lift system fits snugly into small overhead cupboards.

AVENTOS HK-XS – small stay lift

Suitable for many applications (for both tall units and wall cabinets) and needs very little space. The lift system can even be used for cabinets with a shallow internal depth.

AVENTOS HKi – integrated stay lift

AVENTOS HKi is a concealed lift system that is completely integrated in the cabinet side – to create virtually seamless furniture.

Since 2005

Ongoing continuous development:

We continuously strive to improve AVENTOS – for better quality furniture.

Hinge systems for countless installation situations

It is our motivation to develop fittings that meet customers' needs. That is why we are always enhancing and adding more products to our hinge range. Our hinge systems stand for reliable function, enhanced adjustment and assembly ease and attractive design..

CLIP top BLUMOTION

CLIP top BLUMOTION combines innovative technology, international award-winning design and top quality motion within the smallest space, for soft-close BLUMOTION has been seamlessly integrated into the boss.

CLIP top

Simply clip it on and that's it. CLIP top stands for enhanced adjustment and assembly ease, trustworthy function and attractive design. Can be combined with BLUMOTION or TIP-ON.

With **800**
over

different hinges, we have the right solution for your furniture project.

MODUL

Classic design and reliable function – MODUL's combined slide-on and screw-fix feature has proven itself over the years. The hinge system is very popular with furniture makers.

Find more information about our hinge systems at:
www.blum.com/hingesystems1

Find more information about our box systems at:

www.blum.com/boxsystems1

Box systems for a multitude of design demands

The right box system for every requirement. Choose one to suit your needs. With three double-walled and one single-walled box system, Blum offers a wide range of design options intended to meet the very varied design demands placed on furniture. Box systems boast a feather-light glide, enhanced ease of use, impressive quality and beautiful design.

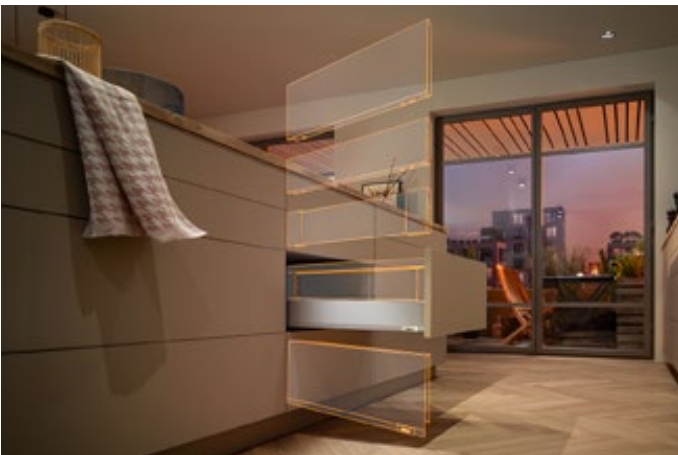

100,000
opening & closing cycles

Our pull-outs are designed to be opened and closed 100,000 times so that they are a pleasure to use for the lifetime of the furniture.

LEGRABOX

The LEGRABOX box system meets the highest standards of customisation and design. With elegant, slim drawer sides and many stunning design possibilities, manufacturers can create a very distinctive drawer design.

MERIVOBX

Offering variety has never been so easy. This platform makes it incredibly simple to manufacture and assemble drawers and pull-outs to meet every demand. Experience maximum functionality combined with stunning design.

TANDEMBOX

TANDEMBOX, our tried and tested metal box system, stands for a reliable product, bespoke services, minimalist design and consistent development.

METABOX

METABOX drawers and pull-outs have only a few component parts. They are made of robust materials to suit many different applications. Can be combined with BLUMOTION.

REVEGO duo
Double door application

Pocket systems for new space concepts

More and more people are merging their kitchen, dining, living and working space. How best can this trend be implemented in modern living concepts? Our solution is a new product category called pocket systems. Single door or double door applications make it possible to quickly and intuitively open up a run of kitchen units or entire living areas when needed, and "conceal" them again when not in use. REVEGO opens up completely new design possibilities for small and large rooms.

Boasting fully integrated technology in a dedicated narrow cabinet (the pocket), REVEGO excels in terms of easy planning, efficient manufacture and intuitive assembly, and is the ideal solution for creating flexible and responsive living space.

Find more information about our pocket systems at:
www.blum.com/pocketsystems1

REVEGO uno
Single door application

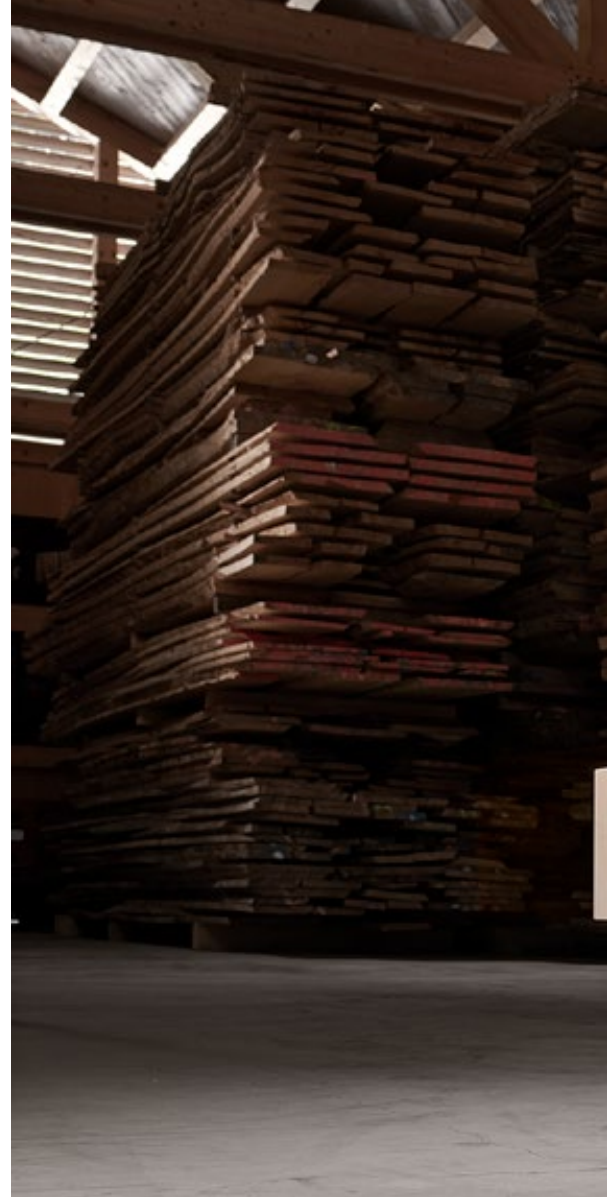

Turn the living room into a home office with a single touch

REVEGO also stands for extraordinary solutions

Runner systems for ultra smooth running action

Our runner systems give you quality steel for your wooden design ideas. We have a solution for every requirement: the sophisticated MOVENTO and the versatile TANDEM runner system. The extremely wide range of options offers great design flexibility. Choose from various nominal lengths, types of extension and load bearing classes, as well as optional motion technologies for soft and effortless opening and closing.

MOVENTO

MOVENTO is a concealed runner system and the sophisticated solution for your wooden design ideas. The synchronised feather-light glide ensures an ultra-smooth running action. The 4-dimensional adjustment options provide you with a precise gap layout. The stable full extension can take a load of up to 70 kg and is ideal for high and wide pull-outs.

TANDEM

The versatile TANDEM runner system delivers a feather-light glide. The concealed runner can take a maximum load of 30 kg and is available as a full or single extension. The broad range offers nominal lengths from 250 to 650 mm with hook and peg or locking device features. We developed the TANDEM 19 mm runner specially for thick drawer sides of 17 to 19 mm.

Pull-out shelf lock for MOVENTO and TANDEM

Quality of living meets design and convenience. We have developed a practical lock-open stop for pull-out shelves equipped with MOVENTO and TANDEM full extensions. The discreet and space-saving mechanism securely holds the pull-out shelf in place.

We have the right runner system

for every design in
WOOD

Inner dividing systems for beautifully organised interiors

Blum's practical inner dividing systems bring full visibility and organisation to every item of furniture. They allow you to make full use of existing storage space and ensure that everything is exactly where it should be. Experience greater quality of living throughout your home.

AMBIA-LINE for LEGRABOX and MERIVOBX

The elegant inner dividing system excels in terms of easy handling and high quality materials such as steel and wood décor. The modern design fits harmoniously into all areas of the home.

ORGA-LINE for TANDEMBOX

ORGA-LINE tidies up the interiors of drawers and pull-outs in no time. High-quality stainless steel trays ensure clear visibility and easy access.

Practical kitchen accessories

Clever kitchen accessories make life easier. Knives, plates, spices, cling film and aluminium foil are neat and tidy and immediately to hand when needed.

Quality of packaging

We attach great importance to the reusability of our packaging. We are also keen to work together with you to develop packaging that is tailored to your requirements.

Personal consultation

Do you have any questions or challenges you need to resolve? Please do not hesitate to contact us. We are at your disposal at all times.

A man with grey hair, wearing a dark jacket over a red shirt and dark trousers, leans against a dark grey kitchen island. The island has a light-colored countertop and a modern faucet. Above the island, three copper pendant lights hang from the ceiling. The ceiling features exposed wooden beams and two small black pendant lights. The background shows a living area with a grey sofa and a coffee table. The overall aesthetic is modern and industrial.
