

- Ideal for large, one-part fronts
- Cabinet height 350-800 mm
- Cabinet width up to 1800 mm
- Internal depth of at least 264 mm
- Integrated BLUMOTION setting
- SERVO-DRIVE electrical motion support system
- Light operating forces
- Variable stop
- Standardised position of the lift mechanism and front fixing bracket
- Symmetrical lift mechanism and lever arm
- Tool-free assembly
- Two lift mechanism fixing methods
- 3-dimensional adjustment of the front

Ordering information

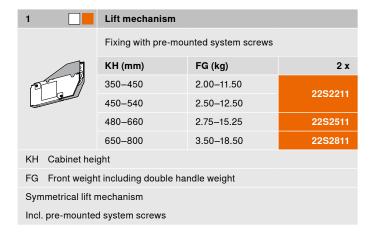

Note

We recommend the more powerful lift mechanism for applications in overlapping ranges.

A trial application is recommended when you are in a borderline area of the individual lift mechanism.

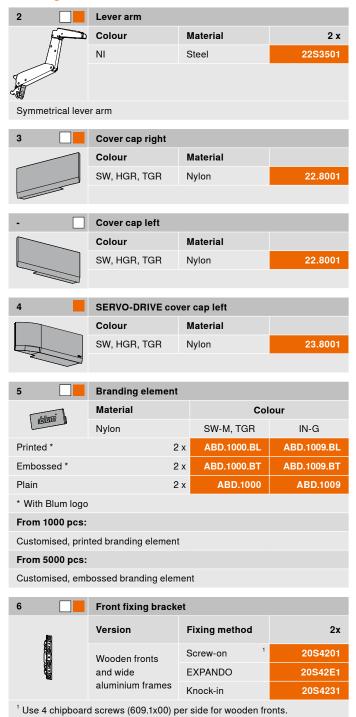

The front weight (FG) can be increased by 50% if you use a third lift mechanism.

We recommend a third lift mechanism for wide cabinets. This will prevent the front from sagging when open.

1	Lift mechanism				
	Fixing with chipboard screws with positioning system				
	KH (mm)	FG (kg)	2 x		
	350-450	2.00-11.50	22\$2201
